The College of Education, one of the nation’s premier education schools, is dedicated to making an outstanding education a daily reality for every student in every community. The College was ranked #7 by U.S. News and World Report in its 2015 ratings, and #2 among public universities. Four specialties ranked in the top 11: Education Administration and Supervision, Elementary Teacher Education, Secondary Teacher Education and Special Education.

**OUR COMMUNITY-FOCUSED AGENDA**

The College of Education collaborates with poverty-impacted schools to close opportunity and achievement gaps. Our community-focused research and training model draws on the expertise of practicing educators as we develop, test and refine leading-edge teaching practices while preparing excellent teachers and leaders.

- Our students participated in almost 800 practicum experiences for a total of 150,000 hours in 142 Washington state schools, district offices, nonprofits and colleges during 2013-14.
- Each year, more than 200 teacher candidates fulfill their student teaching requirements in our Ackerley Partner School Network, comprised of nearly 30 poverty-impacted, culturally diverse Seattle area schools.
- More than half of our teachers work in schools with a student racial and ethnic diversity population of over 40%.
- A third of our teacher graduates work in schools exceeding the state average of 46% of students on free/reduced lunch.
- Our alumni are leading change in schools throughout the nation. Three alumni are currently community college presidents, while hundreds are superintendents, principals or other top administrators.
